

FeasiBuild

Go / No-Go in Hours, Not Weeks

The most expensive mistake in development isn't buying a bad deal. It's being **slow on a good one.**

FEASIBUILD

FOR SCOUTS & ACQUISITIONS ANALYSTS

FeasiBuild

The Cost of Waiting Is the Deal Itself

While you wait 3 weeks for a consultant's feasibility model, the market doesn't pause. A competitor who decides in 48 hours wins.

Week 1-3

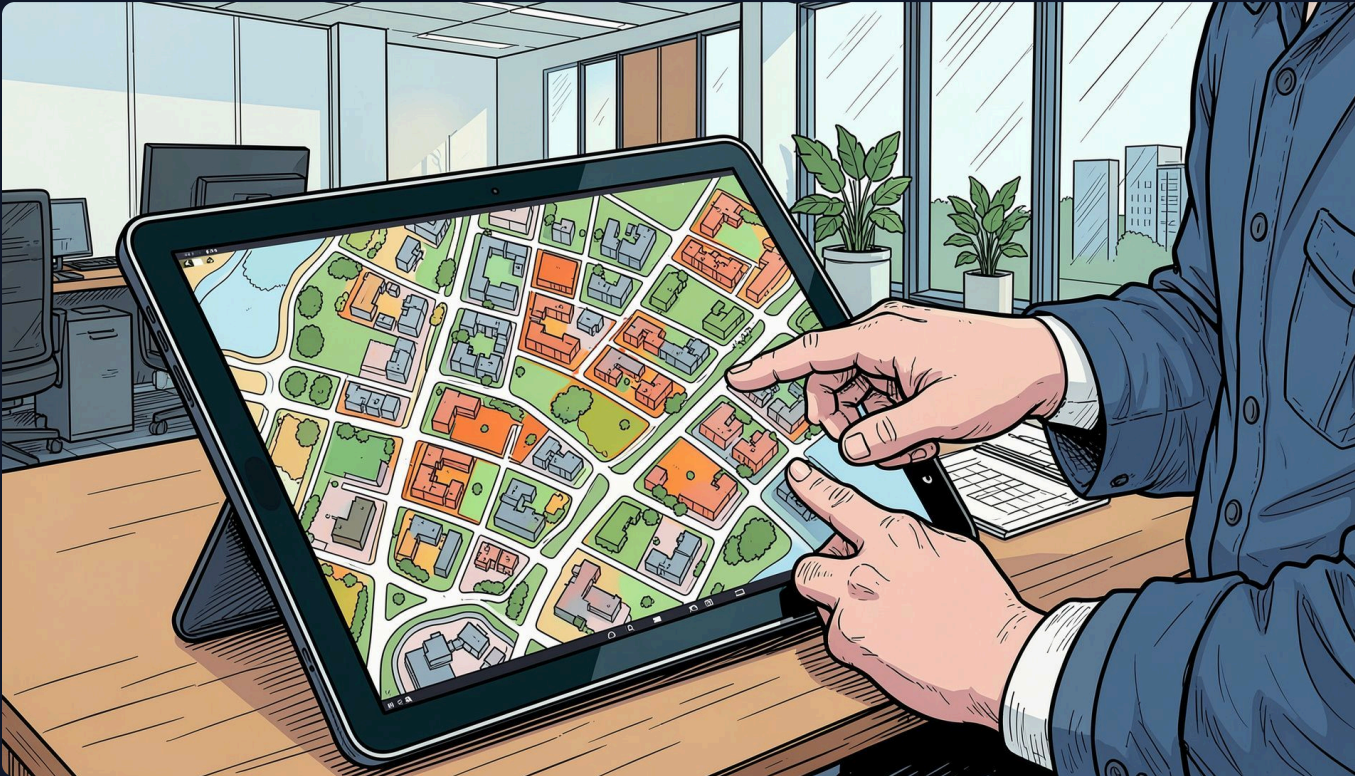

You're waiting on the consultant's model. The parcel is still "available."

Week 2

Land price moves. Seller gets a better offer. Your window closes.

Week 3

A competitor has already signed. Your analysis arrives too late.

FeasiBuild

STEP 1

Pin-Drop the Parcel

Location intelligence starts with a single click. Drop a pin on any parcel and FeasiBuild instantly pulls zoning, comparables, and market context – no manual research, no spreadsheets.

→ Instant parcel identification

→ Auto-loaded zoning & land use data

→ Comparable sales pulled automatically

STEP 2

Residual Land Value + Project IRR in Minutes

FeasiBuild runs the full pro forma in the time it takes to brew a coffee. No waiting. No guesswork. Just numbers.

30 min

Average calculation time

From pin-drop to full feasibility output

\$0

Consultant fees

Run unlimited scenarios without
external costs

30+

Years of methodology

Built on institutional-grade
underwriting logic

STEP 3

Shock the Downside *Before* You Offer

Every deal has a breaking point. Find yours before the seller does. FeasiBuild stress-tests your assumptions – construction cost overruns, absorption delays, rate hikes – so you never overpay.

Cost Sensitivity

What if hard costs run 15% over budget?

Rate Shock

What if financing costs rise 200bps before closing?

Lease-Up Risk

What if absorption takes 6 months longer than planned?

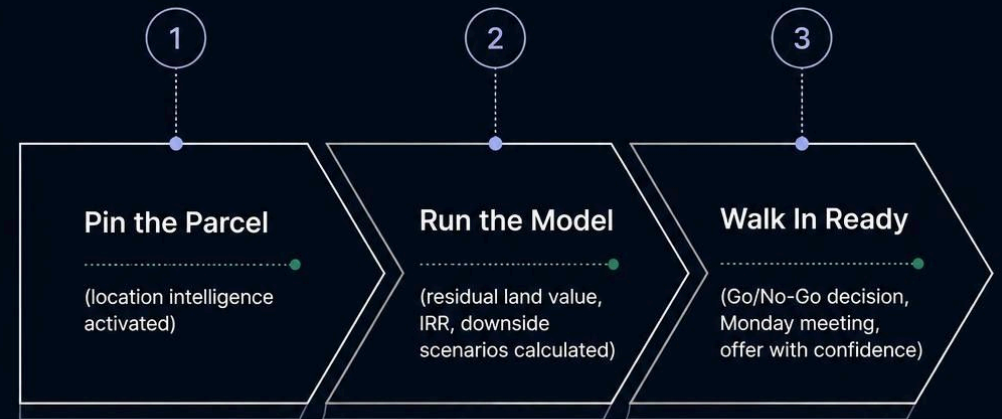

THE OUTCOME

Walk Into Monday's Meeting With the Answer

Not a maybe. Not a "let me get back to you." A clear, defensible **Go or No-Go** – backed by numbers, not instinct.

Same rigor as a full consultant report. A fraction of the time. Zero excuses.

📄 The question isn't "**Is this a good deal?**" It's "**Can you answer before the market moves?**"

Start Free. Scale When You're Ready.

FeasiBuild is built for scouts who move fast. Start with the free Explorer tier and upgrade when you're ready to close more deals.

FREE Explorer Tier

Free access to core feasibility tools. No credit card required.

⚡ Lifetime Access

Full platform access starting at **\$99**. One-time investment.
